

Construction Newsletter

August 27, 2018

You may have noticed a little action on the street today. See below for the latest information.

Schedule

The Contractor was on-site today and began saw cutting in preparation of doing removals. His schedule is to begin the removals tomorrow. When the contractor is doing removal work in front of an individual driveway access to the driveway will not be possible. However, the Contractor will be temporarily ramping the driveways with gravel for use once the removals are done. As they are working on removals they will check with residents to see if cars need to be moved for use before they impact each driveway.

We do not have a specific date for curb installation but we will provide that updated information as soon as it is available.

Other Information

To be good stewards of the environment we will be posting future Construction Newsletters on the City's website and e-mailing them to residents that are willing to provide their e-mail address. If you would like to have updates e-mailed please send an e-mail with your name and address to Lee Elfering, City Engineer at lelfering@elferingeng.com to be added to the electronic mailing list.

Questions

Property owners with questions about the project should call Elfering & Associates representatives – Lee Elfering, City Engineer, at (763) 780-0450 Ext. 3, or Lyle Splittstoser, Inspector, at (651) 587-9209 for construction related questions or concerns.
