

Construction Newsletter

August 31, 2018

The curb and driveway apron installations were completed yesterday. Over the long weekend residents can park on Park View Court. Do not attempt to drive over any of the concrete and make sure to leave sufficient room on the street for cars and emergency vehicles to get in and out of the cul-de-sac. It is likely some vehicles will need to be parked on Jackson Street due to the limited area along Park View Court.

The Contractor has indicated that he will be grading the gravel in front of the curb and in the driveways starting Tuesday, September 4th and **we ask that residents move their vehicles off Park View Court and onto Jackson Street by 7 a.m. Tuesday, September 4th** to allow the contractor sufficient room to work. We anticipate that the Contractor will have all the driveways accessible by 7 p.m. on Tuesday and residents can park their vehicles in their garages or on the driveways for the rest of the project.

Schedule

The Contractor will be placing gravel in front of the curbs and in the driveways on Tuesday, September 4th. That work will be followed by patching in the bituminous along the curb and at each driveway. The bituminous along the curb will be held down to allow placement of the bituminous wear course once the street has been milled. At this time the Contractor is still waiting for a confirmation on when the milling machine will be in to complete the street milling and paving and we will provide that information once dates have been provided.

Other Information

To be good stewards of the environment we will be posting future Construction Newsletters on the City's website and e-mailing them to residents that are willing to provide their e-mail address. If you would like to have updates e-mailed please send an e-mail with your name and address to Lee Elfering, City Engineer at lelfering@elferingeng.com to be added to the electronic mailing list.

Questions

Property owners with questions about the project should call Elfering & Associates representatives – Lee Elfering, City Engineer, at (763) 780-0450 Ext. 3, or Lyle Splittstoser, Inspector, at (651) 587-9209 for construction related questions or concerns.
