

Construction Newsletter

September 4, 2018

With the rain today the Contractor was not able to complete the work necessary for residents to have access to their driveways. Depending on the amount of rain we receive and the condition of the areas that are exposed it may take a few days for the Contractor to complete the work necessary to get residents into their driveways.

We will provide an anticipated date for driveway access once it has been determined, but ask that residents continue to be off the street between 7:00 a.m. and 7:00 p.m.

Schedule

The Contractor will be placing gravel in front of the curbs and in the driveways as soon as is possible to move the project along. A future update will provide more specifics on the anticipated date in which driveway access will be reestablished.

Other Information

To be good stewards of the environment we will be posting future Construction Newsletters on the City's website and e-mailing them to residents that are willing to provide their e-mail address. If you would like to have updates e-mailed please send an e-mail with your name and address to Lee Elfering, City Engineer at lelfering@elferingeng.com to be added to the electronic mailing list.

Questions

Property owners with questions about the project should call Elfering & Associates representatives – Lee Elfering, City Engineer, at (763) 780-0450 Ext. 3, or Lyle Splittstoser, Inspector, at (651) 587-9209 for construction related questions or concerns.
